INSTRUCTIONS TO APPLICANTS.

1. Full details of the materials must be given, e.g. it is *not* sufficient to indicate quantity or weight only. Complete technical specification of dimensions and type must be stated.
2. Applicants must ascertain that the materials are actually on the date of their application in the possession of the suppliers named. Applications which do not give the names and addresses of suppliers will not be considered.
3. If the materials are required for the construction of a machine, apparatus, installation or the like, applications must be accompanied by adequate technical drawings.
4. If the materials are required for a building operation applications must be submitted through the Building Authority concerned and must be accompanied by working drawings, a calculation of the amounts of materials necessary to construct or complete the building, and by a Certificate of Essentiality as provided for in Instruction 5.
5. If the materials are required for an item of work connected with an industry or undertaking not under the direct control of the Controller of Heavy Industries this form must be submitted to a Government Authority or Military Authority for completion of the Certificate of Essentiality, for which space is provided below, before being sent to the Controller of Heavy Industries.

CERTIFICATE OF ESSENTIALITY.

D
C
Pl. bring up the application referred to with all papers referred to
12/1
Subject:- Petition of Abdul Rahim Haj Mohd. Anabta Village
Reference: Your letter No. BPT/17 of 22nd Jan. 1946 addressed to the District Officer, Tulkarm with copy to me

1. In reply to your above letter I would point out that reconsideration of the petitioner's application should be made in the light of the following points:-

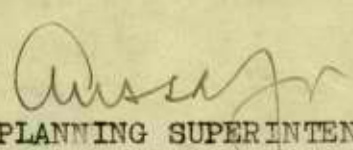

(a) Applicant's attention should be drawn to the building set backs and by laws in force.

(b) A house of an area of 30 m² could be built on a 60 m² plot (i.e. 50 %) in accordance with the building by-laws for villages and settlements in force.

(c) Since the site in question is merely a proposal for a village square, arrangement should be made to expropriate it as such by the Local Council so as to insure that no private building would be constructed or recommendation should be made by the respective authorities to the Regional Commission to prepare a detailed scheme in which the site in question should be set aside for a village square. When such a detailed scheme is authorized building will be restricted in accordance with the provisions of the scheme.

2. I am of the opinion that we have no legal standing to refuse the petitioner's application as long as he conforms to the building by-laws in force.

3. I should be glad therefore if you will discuss the question again at the next meeting of the Building Permit Sub Committee and to inform the applicant accordingly.

3
Inspected on 4.2.46 & found the position as on plan.

No. 81/2

Answer to Question No. 10
Mining

Question: Will the Minister for Lands and Mining be good enough to state whether the Government are aware of the fact that the land in the area of the proposed new village is being used for agricultural purposes and whether the Government are aware of the fact that the land is being used for agricultural purposes?

Answer: Yes, Sir. I am aware of the fact that the land in the area of the proposed new village is being used for agricultural purposes and that the land is being used for agricultural purposes.

(a) The land in the area of the proposed new village is being used for agricultural purposes and that the land is being used for agricultural purposes.

(b) A portion of the land in the area of the proposed new village is being used for agricultural purposes and that the land is being used for agricultural purposes.

(c) The land in the area of the proposed new village is being used for agricultural purposes and that the land is being used for agricultural purposes. The land in the area of the proposed new village is being used for agricultural purposes and that the land is being used for agricultural purposes.

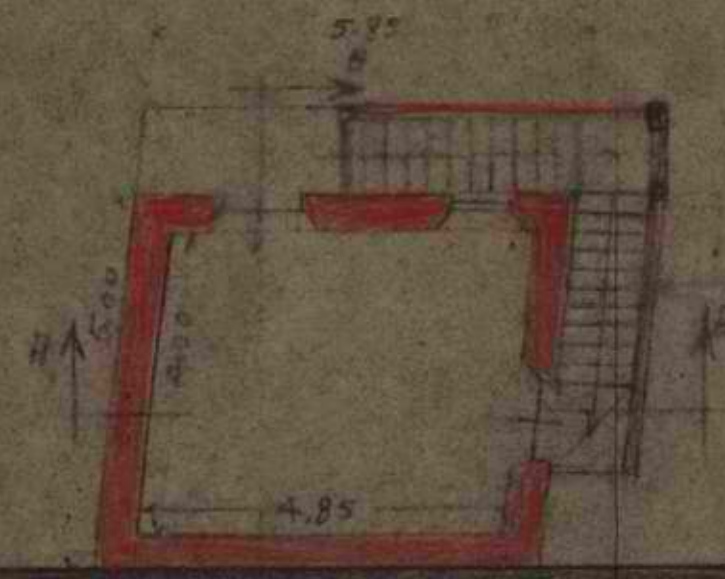

I am of the opinion that we have no land in the area of the proposed new village which is being used for agricultural purposes and that the land is being used for agricultural purposes.

I should like to state that the land in the area of the proposed new village is being used for agricultural purposes and that the land is being used for agricultural purposes.

Defence Regulations, 1939.

OFFICE OF THE CONTROLLER OF HEAVY INDUSTRIES.

APPLICATION FOR A PERMIT AUTHORISING THE SALE OF OR DISPOSAL
OF THE OWNERSHIP IN CONTROLLED MATERIALS.

(N.B.—Before filling in details applicants are required to read carefully the instructions given overleaf. Unless these instructions are strictly adhered to, applications cannot be promptly dealt with and may automatically be rejected).

- (a) Name and address of applicant: Fa'zi Ahmad Ibrahim & Ahmad Ibrahim Khalil
Anabta Village
- (b) Nature of business: dwelling
- (c) No.(s) of licence(s) held/issued by
the Controller of Heavy Industries:

(d) Description and specification of materials: (see Instruction 1)	Name and address of supplier: (see Instruction 2)	Price to be paid:
1 Cement: 16.540 Tons	Darweesh El Nashif	Govt Price
2 M.S. Bars 500 Kgs 16mm ϕ	Tulkarm	
97 = 6mm ϕ	Arab Importers, Jaffa	- do -
900 = 10mm ϕ		
3 Timber (Pine) 500 = 12mm ϕ	Arab Importers, Jaffa	- do -
2.41 M3		

- (e) Stocks held by applicant in materials requested:

- (f) Precise nature of work for which materials are required: To Cast with reinforced concrete 4 rooms and accomadations for the dwelling of our families.

- (g) Enclosures (see Instructions 3, 4 and 5):

I/We hereby certify that all the particulars given above are true and correct in every respect and that I am/we are aware of the provisions of Regulations 67 and 76 of the Defence Regulations, 1939.

Date: 25.1.46

INSTRUCTIONS TO APPLICANTS.

1. Full details of the materials must be given, e.g. it is *not* sufficient to indicate quantity or weight only. Complete technical specification of dimensions and type must be stated.

2. Applicants must ascertain that the materials are actually on the date of their application in the possession of the suppliers named. Applications which do not give the names and addresses of suppliers will not be considered.

3. If the materials are required for the construction of a machine, apparatus, installation or the like, applications must be accompanied by adequate technical drawings.

4. If the materials are required for a building operation applications must be submitted through the Building Authority concerned and must be accompanied by working drawings, a calculation of the amounts of materials necessary to construct or complete the building, and by a Certificate of Essentiality as provided for in Instruction 5.

5. If the materials are required for an item of work connected with an industry or undertaking not under the direct control of the Controller of Heavy Industries this form must be submitted to a Government Authority or Military Authority for completion of the Certificate of Essentiality, for which space is provided below, before being sent to the Controller of Heavy Industries.

CERTIFICATE OF ESSENTIALITY.

(to be completed by the relevant Government or Military Authority).

To Controller of Heavy Industries, P.O.B. 661, Jerusalem:—

Subject:- Release Materials

Reference: Permits Nos.

MS 4375/E, MS 4249/E & MS,
4250/E.

Further to my letter of even number dated 12.12.45, I was approached again by Messrs. Abdul Halim & Hafez Mahmoud who stated that the suppliers mentioned on the above release permits could not supply the released quantities to the licensee either for non-availability of sizes or other reasons.

I should therefore be very grateful if a new permit will be issued to cover the released quantity on one supplier, namely the Arab Iron Importers Co. Jaffa in order to enable the finishing of the unroofed building that exists already for the last 9-months.

*The permits are returned herewith
for cancellation.*

BPT/17

District Officer,
Tulkarm

Subject: Petition of Mr. Abdul Rahim
Haj Mohd. - Anabta Village
Ref'nce: Your T/41/5-29 of 16.1.46

The site of the petitioner was inspected by the Town Planning Inspector and the Chairman of the Local Council Anabta on 28.11.45 and they both decided that it is not in order.

The Building Permit Sub Committee, has in its meeting held on 4.12.45 examined the application and refused to issue a Building Permit for the following reasons:

- (a) the location of the site in the Village Square
- (b) the area of land that is approximately 60 M2 only
- (c) the proposal of petitioner to build his walls adjoining to the neighbours from two sides without setting back.

In case the petitioner insists that his application be reconsidered, I shall then refer it to the Regional Town Planning Commission in its next meeting

سعادة قائممقام طولكرم المحترم

المستدعي = عبد الرحيم الحاج محمد يوسف من قرية غنينا

الموضوع = اعادة النظر في ترخيص بناء *

يوجد لي قطعة ارض داخل البلدة غنينا وقد طلبت رخصة من دائرة القائم مقام سنة ١٩٤١ فرخص لي بالبناء ولكن لظروف الحرب لم اتمكن من اتمام بنايتي فبنت جد رين واسست الثالث وتوقفت عن العمل *

وفي هذه السنة طلبت من دائرة تنظيم الاء بنية الاقليمي رخصة لاكمال البناء فطلب مني تقديم حرائط فنية فقد مت لها ذلك وبعد ما جاء في جواب بان لا يسمح لي بالبناء مع العلم بانني قائم بجميع الشروط وان الطريق المجاورة لهذا البناء المراد تكميله عرضها اكثر من ستة امتار فعليه اقدم استدعائي هذا راجيا من سعادتك اعادة النظر في طلبي ومنحني ترخيصا بأكمل البناء الذي حسرت على انشائه اكثر من مئة وخمسين جنمها فلسطينيا *

ونسفعلوا بقبول فائق الاحترام *

وانني مرفق طيه حريجة بالبناء المذكور والسلام *

سعادة قائم مقام طولكرم المحترم

المستدعي = عبد الرحيم الحاج محمد يوسف - من عنينا

المستدعي ضده = محمود احمد الزبول - " "

الموضوع = اقامة بناء خلافا لمضمون رخصة البناء .

بما أن محمود احمد الزبول من عنينا مجاورا لداري وملاصقا لحد جدرانها باشر
باقامة بناء جديد فأصبح بنائي القديم متراخلا في بنائه الحدث (اي البوابة التي فتحها
من جديد) والتي تشرف على جداري القديم . وهذا خلافا لمراعاة الرخصة القانونية
للبناء . وبما ان بناء هذا سيؤدي الى معارضي ومنعي من تكملة بنايتي الملاصقة
لبوابة بنايته التي انشأها لذلك استرحم اصدار امركم بالكشف اللازم ومنع المذكور من
عمله المخالف للقانون .

وتفضلوا بقبول الاحترام سيدي .

المستدعي

عبد الرحيم الحاج محمد يوسف

1945/11/1

سعادة قائم مقام طولكرم المحترم

بناء على امركم الشفهي للنظر في ادعاء المستدعي أقول =

نظرت في اعتراض المستدعي على بناية المستدعي ضده فوجدت ان مدخل البناية
التي ينشئها المستدعي ضده يمنع المستدعي من انعام جدار بنايته القائم لتشكيل محل بناية
له على الوجه الذي يريد . اي ان المستدعي اذا اراد تميم الجدار الذي بناء سابقا
فانه يخلق نصف مساحة المدخل الذي انشأه المستدعي ضده .

لهذا ارجو اعادة النظر في امر العريقتين للفصل بينهما كما ترونه مناسباً

وتفضلوا بقبول فائق الاحترام .

مخار عنينا

Circular No. 1000 of 1940

Reference is made to the letter of the Government of Madras dated 10.12.40, No. 1000 of 1940, regarding the subject mentioned above. The Government of India have been informed that the Government of Madras have decided to grant a pension of Rs. 100 per month to the widows of the deceased members of the Madras Legislative Council who were members of the Council at the time of their death. The Government of India have no objection to this proposal and have agreed to contribute Rs. 50 per month towards the pension of each such widow. The Government of Madras are requested to arrange to pay the balance of Rs. 50 per month from their own resources.

Yours faithfully,
[Signature]

ASSISTANT DISTRICT COMMISSIONER'S OFFICE
TELKARM.

8 December, 1945.

The Director of Surveys
Jaffa.
-----BPT/17
18 DEC. 1945Subject:- Village Development Survey - 'Anabta,
Tulkarm Sub-District.

Ref'nce:- Your T51/24-8098 dated 21.11.45.

A Committee consisting of Messrs R. Jaussey, T. Tamimi and the undersigned, accompanied by the President, Local Council of Anabta, on the 30.11.45 inspected the boundaries of the village of Anabta and recommend that the said boundaries shall be as indicated hereunder and as indicated and endorsed on the print supplied by the District Survey Officer, Tulkarm.

No particular extension of any part of the village lands has been included, hence there are no special reasons for choosing a particular area for development and rejecting others.

Boundaries:

Beginning with the N.W. Corner of Parcel No. 35, Block 8531, following the Western boundary of the said Parcel, including Parcel No. 37, to the Western corner of Parcel 27, Block 8533, including Parcel 26, Block 8533, across the Railway and the Tulkarm Nablus Road, to the S.W. Corner of Parcel 34, Block 8533, thence following the boundary of Block 8535 Westwards to the Western end of Parcel 7 Block 8535, including Parcel 4 to Govt. Control Point No. 181/A, thence following the common boundary of Blocks 8535 and 8532, covering Blocks 8535 and 8536 to the S.W. Corner of Parcel 53, Block 8541, along Parcel 53 to Parcel 29, thence following Roads 50 and 51 to Control Point No. 360/A, along the common boundary of Blocks 8539 and 8540 including the whole of Blocks 8537 and 8539, thence from the corner of the Common boundary of Blocks 8528 and 8530, including Parcels 66, 67, 68, 69, 20 and 71 of Block 8530, following the Common boundary of Blocks 8530 and 8531 back to the starting point.

The first part of the report is devoted to a description of the work done during the year. It is divided into two main sections, the first of which deals with the work done in the laboratory and the second with the work done in the field. The laboratory work was carried out under the supervision of the Director and consisted of a number of experiments on the properties of the new material. The field work was carried out by the staff of the station and consisted of a number of expeditions to the various localities mentioned in the report. The results of the work are given in the following tables.

TABLE I
Properties of the new material

Property	Value
Strength	1000 lbs.
Weight	100 lbs.
Length	100 ft.
Width	100 ft.

Z/306/45.

20th November, 1945.

District Commissioner,
Samarra District.

Subject : Removal of Dangerous Buildings.

Further to the letter dated 13th November, ref. No.T/41/5-15, addressed to you by the Asst. District Commissioner, Tulkarm, with a copy to me, I wish to draw your attention to the resolution already adopted by all District Commissioners in conference regarding ruinous and dilapidated buildings in villages. As a result of numerous discussions on this matter the District Commissioners are of the opinion that the lengthy procedure under the Town Planning Ordinance is impracticable where Arab villages are concerned. Some quicker and more effective method is essential. A draft proposal is set out in the provisions of the Detailed Scheme of Selfit. This proposal however is primarily designed to cover ruinous and unauthorised buildings but in the interests of safety it is considered that they might with advantage be extended to cover dangerous buildings.

If agreement is reached on this point then the draft Ordinance must contain provisions to make the proposal 'intra vires'.

ASSISTANT DISTRICT COMMISSIONER'S OFFICE
TULKARM.

13 November, 1945.

District Commissioner,
Samarra District.

Subject:- Dangerous Buildings at Anabta.

The President, Local Council of Anabta, recently reported the existence of several dangerous buildings at Anabta. A list of these was passed to the District Engineer, P.W.D., Nablus, who inspected them and comments thereon as per the attached report.

As no by-laws exist for the Local Council of Anabta, the matter was taken up with the Town Planning Adviser, Jerusalem, who states that, until the new draft Ordinance is passed no provision exists to order demolition.

This can be done under Sec. 380(g) of the Criminal Code Ordinance. Two points, however, arise which it is necessary to face squarely before such an order can be issued.

- ② Discussed with the T. P. S. who promised to take necessary action with T. P. A. 11/21/11
- 1) If demolition is ordered by the "Local Authority".
 - a) the owner can refuse and, on trial, be fined LP.5 only.
 - b) the owner can demand compensation.

- 11) If the owner chooses to repair without setting back, then, unless heavy compensation is paid, future Town Planning in that street has been defeated by just the number of years necessary before his repaired wall falls.

As against the above, should you lay down that if the owner knocks down to repair he must set back, he will probably refuse to do so because the remaining space available will be so much smaller.

And lastly the point as to whether the set back shall be four or three meters from the center of the road again arises. Some public roads at a place like Anabta should be at least 8 meters wide.

The alternative is to let the buildings fall when the rains come. This, of course, is dangerous. Or again the owner may attempt to stem that off by repairing the surface of the walls with lime, or even cement, plastered over the dangerous places

Guidance is sought.

J. Smurville
Assistant District Commissioner,
Tulkarm.

No. 13/5PUBLIC WORKS DEPARTMENT
NABLUS

2.11.1945.

Asst. District Commissioner,
Tulkarm.

Subject:- Dangerous Buildings - Anabta.

Ref'nce:- Your T/41/5-8 of 20.10.45.

1. I have to report the following:-

a) Bakr Ismail en Nur.

The corrugated Iron Hut (2.5ms.x1.sms.) built against the entrance constitutes an encroachment on the street. It is suggested that this hut be demolished.

b) Salim Abdulla Wasem.

The South East corner of house is dangerously cracked. This corner should be demolished.

c) Mustapha Masoud Ados.

The roof of the North Western Room has curved and the vertical walls are considered dangerous and should be demolished.

d) Ibrahim Ahmad Hamdan esh Shihab.

The boundary wall is dangerously leaning over on to road and should be demolished.

e) Salameh Mohd Salameh.

The wall over entrance door of boundary wall is leaning over on to road side and is considered dangerous. This wall should be demolished.

f) Abdel Karim Ahmad Khader.

The arch supporting wooden joists of roof is considered unsafe and the house should be demolished.

2. In addition the following houses have been inspected:-

a) Ali Abdul Samad and Partners.

The front elevation (Northern) of a barrel vault is dangerously cracked and the vaulting is cracked. The Northern portion of the vaulting should be demolished.

b) Taleb Abdulla Jaber and Partners.

The South Eastern corner of the Southern Room on First floor is dangerously cracked. This room should be demolished.

c) Abdul Latif Shihab and Partners.

The Northern and Eastern boundary wall is dangerously cracked and should be demolished.

d) Yusuf Kubba and Partners.

The external boundary wall is dangerous and should be demolished.

e) Yusuf Kubba.

It appears that part of the support to vault was removed to allow for opening of doorway for access to upper floor. This doorway should be filled in immediately to prevent collapse of upper walls.

3. All these houses reported upon abut on to main or side streets and are considered to be dangerous to passers by and it is recommended that immediate action be taken before the fall of heavy rains.

No. SP/2

7th July, 1945.

Assistant Town Planning Superintendent,
Samarita District.
P.O.B. 62,
Nablus.

Subject:- Building applications from Anabta Village.
Reference:- Your letter BPT/17 of 4th July, 1945.

*Noted.
P. A.
26/7*

In reply to your letter of the above reference, I like to draw your attention to the fact that the 60 meter building line restriction inscribed on the plan of the Regional Outline Scheme is intended to be applied within areas of agricultural zone, outside the built up or the ultimate extension of built up areas of respective villages. Thus if we were to apply the said restriction to villages such as Anabta, Qalqilya etc, where there exist no approved detailed scheme, half of the respective village, if not more, would eventually disappear. In this particular village, Anabta, there are many existing buildings at 10 metres from the centre of the main Nablus-Tulkarm Road and if we succeed in setting back new buildings 15 meters from the said center we would accomplish a 30 meter road which is quite sufficient for traffic purposes.

I would like to stress further that the 60 meter building line restriction is not intended by any means for the future widening of respective roads, but if is intended for the prevention of ribbon development on main roads where traffic is supposed to go at high speed.

T.P. Superintendent
P.O.B. 1163
Jerusalem

(Copy)

4 JULY 1945

Subject: Building applications from
Anabta Village

The Chairman of the B.P.S.C.
Tulkarm ~~is~~ in a meeting held on 3-7-45
has raised the question of building on
~~the main road~~ Nablus - Tulkarm road,
~~as to whether the set-back~~ setting back
should be in accordance with the Outline
Regional Planning Scheme of Samaria
District, i.e. 75m from centre line of the
existing road.

Therefore, I shall be very grateful
if you will clarify this point, on the
light of which Anabta building appli-
cations might be considered by the Committee

W.

Copy to: D.O., Tulkarm.

Asst. T.P. Supt.

District Engineer,
Public Works Department,

JERUSALEM,

Subject: Defence Regulations, 1939.
Release of Cement.

Please deliver on repayment to
of the quantity of bags of cement from
the stocks kept by you for disposal of the Regional Engineer
(T.F.A.) Jerusalem, reference Permit No. of

Ref. Regional Engineer's

Serial No.

REGIONAL ENGINEER
FOR TOWER PLANNING ADVISER.

BPT/17/A

28th February, 1945.

Chairman,
Building Permit Sub-Committee,
Tulkarm S/D,
c/o District Commissioner's Offices,
Tulkarm.

Subject: Construction of public
latrines and four rooms,
Anabta.

Further to our last meeting at
Tulkarm, I have checked the controlled
materials asked for by Sheikh Rafik
Mohamoud Abdul Halim of Anabta for the
above construction and I found out that
the materials asked for are reasonable.

As this construction is of a public
use for the benefit of the Mosque, I
should be grateful if you will pass the
application to the Assistant Liaison
Officer, Nablus, so that he would re-
commend it to the Controller of Heavy
Industries for the release of the
controlled materials as requested.

Enclosed herewith two copies of
plan of the construction together with
COM 54 in duplicate, please.

Sgd. A. M. SHAFI
REGIONAL ENGINEER
JERUSALEM.

 REQUIRED

I CEMENT:

- Concrete mixture of 1:2:4, allow 280 Kgs. per m³.
 - Roofing slab:
 $5.70 \times 7.00 \times 2.30 = 147.75 \text{ m}^3 \times 14 \text{ cm, thick} = 20.71 \text{ m}^3$
 $20.71 \text{ m}^3 \times 280 \text{ Kgs.} = 5798.80 \text{ Kgs.}$
 - Plastering:
 - F + ceiling:
 $\{ (5.70 + 5.00 \times 3.50) + (5.20 + 5.00 \times 3.50) + (5.00 + 5.00 \times 3.50) + (5.00 + 5.00 \times 3.70) + (5.00 + 5.00 \times 4.50) \} = 99.875 \text{ m}^2$
 $99.875 \text{ m}^2 \times 2 \text{ Kgs.} = 199.75 \text{ Kgs.}$
 - For walls:
 $\{ (5.50 + 4.00 + 3.50 + 5.00) + (3.50 + 5.00 + 3.50 + 5.20) + (3.50 + 5.20 + 3.50 + 4.50) + (3.70 + 5.50 + 3.70 + 5.00) + (4.50 + 5.00 + 4.00 + 6.00) \} \times 4.00$
 $H. + (1.70 \times 2.50 \times 8 \text{ N.} + 5.10 \times 2.50) + (1.00 + 1.30 \times 0.40 \times 12 \text{ N.}) = 401.00 \text{ m}^2$
 $401.00 \text{ m}^2 \times 2 \text{ Kgs.} = 802 \text{ Kgs.}$
- Flooring:
 - For rooms:
 Ceiling area = 99.875 m² x 10 Kgs. = 998.75 Kgs.
- Sanitation work: 500 Kgs.
- Partition walls for latrines and urinals:
 - For latrines:
 $\{ (7.00 \times 2.50 \times 0.10 \times 4 \text{ N.}) + (5.70 \times 2.50 \times 0.10) + (1.00 + 1.30 \times 0.40 \times 0.10 \times 6 \text{ N.}) \}$
 $= 3.431 \text{ m}^3$ of concrete x 500 Kgs. = 1725 Kgs.

II M.S.B. STEEL:

- Roofing slab:
 - For the rooms & latrines:
 $20.71 \text{ m}^2 \times 70 \text{ Kgs.} = 1449.70 \text{ Kgs.}$

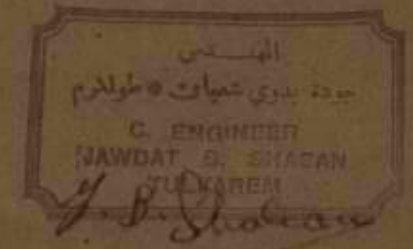

III K. TIMBER:

- For doors & windows, allow 0.075 m³ per m².
 - Doors: for rooms:
 $1.00 \times 2.50 \times 4 \text{ N.} = 10.00 \text{ m}^2$
 $1.20 \times 2.50 \times 1 \text{ N.} = 3.00 \text{ m}^2$
 $1.50 \times 2.50 \times 1 \text{ N.} = 3.75 \text{ m}^2$
 $16.75 \text{ m}^2 \times 0.075 \text{ m}^3 = 1.256 \text{ m}^3$
 - Windows:
 $0.70 \times 1.50 \times 8 \text{ N.} = 8.40 \text{ m}^2$
 $3.00 \times 0.50 \times 1 \text{ N.} = 1.50 \text{ m}^2$
 $9.90 \text{ m}^2 \times 0.075 \text{ m}^3 = 0.7425 \text{ m}^3$
 - Doors for latrines:
 $0.70 \times 2.00 \times 5 \text{ N.} = 7.00 \text{ m}^2 \times 0.075 \text{ m}^3 = 0.525 \text{ m}^3$
 2.1575 m^3

IV S.V. Pipes for latrines 4" 6.00 mtrs.

V W.S. Pipes 1 1/2" 15.00 mtrs.
 1 1/2" 22.00 mtrs.

Assistant District Commissioner's Office,
Tulkarm.

17th January, 1945.

Regional Engineer,
Town Planning Adviser,
Jerusalem.

22 JAN 1945

REGISTERED

Subject:- Lavatories scheme for the Mosque-Anabta.

After the meeting on 16.1.45 the Medical Officer and myself carried out a joint inspection and indicated to the promoter where the cesspit should be made outside the main road as shown on the enclosed plan in triplicate.

2. In view of that application may now go through if you have no objection.
